LOW CARBON AND ENVIRONMENTAL PROTECTION MOTOR DESIGN

DC MOTOR HIGH ENERGY EFFICIENCY

BRUSHLESS DC MOTOR HAS LOW NOISE, LOW VIBRATION AND HIGH INSULATION PERFORMANCE

Run quieter, more stable and safer.

Efficient operation, strong output, level 1 energy efficiency, power saving, low carbon and environmental protection

- Four gears of wind speed, combines hardness with softness.
- Four wind speeds are adjustable and fresh as natural winds.
- The third gear wind is violent, the second gear wind is mild and the first gear is soft, and the wind speed is adjusted automatically by the automatic gear.
- Clear wind blowing, as you need
